

Tuesday 10<sup>th</sup> January 2017

**Home learning project: Due Monday 27<sup>th</sup> February 2017**

As part of our Iron Man topic we would like the children to make a junk model of a robot for their home learning project. These will be displayed in the classroom so therefore please ensure that they are no bigger than a metre. We welcome creativity; perhaps your robot could have moving parts or flashing eyes even? The finished robot should reflect the length of time given to the project. They will be displayed in the school and we want the children to be proud of their designs. You will be able to view all of the models on **Wednesday 1<sup>st</sup> March.**

The children will be bringing home their designs which they will have completed at school. The designs will be sent home on **Friday 20<sup>th</sup> January.** There are no restrictions to what they can make however we would like to reassure you that we are not expecting you to go out and purchase any of the materials, instead please recycle anything that you have at home. Eg boxes, toilet rolls and cereal packets.

We hope you enjoy the project and in particular working with your child to produce something wonderful!

The Year Three Team
