

Tuesday 3rd October 2017

Landscape Strategy Workshops

You are invited to come along to these exciting workshops. We need your views and opinions as we seek to develop the school grounds and site and maximise learning and community use. This is an exciting project that we hope will involve the whole school community and lead to a strategic plan for the future. We are working alongside a Hampshire Landscape Architect, Catherine Eldred.

Workshop 1: Wednesday 8th November 2017 9.15am – 11.15am

Activity 1 - Developing a Shared Vision

“We would like our Grounds to be a Place where....”

An activity where everyone is asked to complete the above sentence and put their anonymous responses onto post it notes, which are collected and displayed.

People and Place NOW

Activity 2 - “Rate the Space”

An exercise using photos of existing spaces to evaluate their quality and use. An opportunity to discuss their advantages and challenges.

Activity 3 - Exploring Key Themes

All of the groups have the opportunity to work on plans of the school site to discuss how these themes are recognised within the grounds. What are the aspects that are working well, and what are the blocks and barriers to how the grounds might be used better, or more often to how they currently are.

- Arrival, Welcome and Circulation around the site
- Health and Well Being
- Context and Community
- Socialising, Play, Break and Lunchtimes
- The Natural Environment
- Outside Teaching and Learning

Workshop 2: Wednesday 22nd November 2017 3.40pm – 5.30pm

People and Place FUTURE

Activity 1 - Key Spaces for the Future

What do you need, and what would you like in your grounds? These ideas will have developed from Workshop 1, but will be further explored by using a selection of images.

Activity 2 – Zoning

“What space would you put where,..... and, if money was no object!”

We would very much like you to be part of this process. Please complete the form below and return to the school office so we have an idea of numbers attending.
