

Mathletics: A Parent's Basic Guide

Mathletics is helping children at Ashley Junior School to enjoy maths and increase their breadth and depth of mathematical understanding.

Mathletics has many aspects from quick fire calculations, times table music videos and interactive tutorials in line with the maths topics covered in the primary curriculum. This page will show you how you can support your child in using Mathletics at home.

Basics

All children in year 3-6 have access to Mathletics through their own username and password. This gives them access to all the mathematical games, resources and activities. If your child does not have a username and password please contact Mr Cousins who can organise setting one up for them.

In KS2, Mathletics activities may be set by the class teacher for homework. Once logged on, your child will not have access to all the games and activities until the given homework activities have been completed. It is important that children do their best in these activities as the scores are stored and can be viewed by the class teacher.

For children who do not have access to the internet at home, the school runs a Homework club. Please contact the Admin office for more information.

Mathletics also requires a modern browser and an up-to-date version of flash player (free from Adobe). Full technical specifications are on the Mathletics website. A Mathletics app can also be downloaded, but at the present time does not seem to have the full functionality of the website. Some formats charge for the app.

One tip when navigating the website is to avoid pressing your browser's 'back' button. Rather use Mathletics own buttons within the webpage.

If you need any help please do not hesitate to ask.

Best regards

Mr Cousins
