	<b>I enjoy ... words</b>	<b>I enjoy ... numbers</b>	<b>I enjoy ... Science, History or Geography</b>
<b>Task</b>	<p><b><u>Tyrannosaurus Drip - Julia Donaldson, David Roberts</u></b></p>  <p><a href="https://www.youtube.com/watch?v=tfv9GLmaUM">https://www.youtube.com/watch?v=tfv9GLmaUM</a></p> <p>Watch the story and think about the characters. There were 'goodies' and 'baddies'</p> <p>Fold a piece of paper in half. Draw one of the goodies at the top of one half and write all the things about that character that made them a goody. Then draw the baddy in the other half and write all the things that made them a baddy on that side. You could make it a mind map if you like.</p> <p>Which dinosaur would you like to be? Why?</p>	<p><b><u>Dinosaur Fact Cards</u></b></p> <p>Write the name and draw a picture of the Dinosaur on the front of each card.</p>  <p>Find out:</p> <ul style="list-style-type: none"> <li>-Length</li> <li>-Height</li> <li>-Weight</li> <li>-One fascinating fact</li> </ul> <p>Turn the card over and write these facts on the back.</p> <p><a href="https://www.nhm.ac.uk/discover/dino-directory/name/a/gallery.html">https://www.nhm.ac.uk/discover/dino-directory/name/a/gallery.html</a></p> <p>You could even get a family member to test you on all your new Dinosaur knowledge using these cards.</p>	<p><b><u>Fossil information booklet</u></b></p> <p>Find out how Fossils are formed</p> <p>Watch this video and make notes as you watch it with the key information. You can keep it simple or go into as much detail as you like.</p> <p><a href="https://www.youtube.com/watch?v=87E8bQrX4Wg">https://www.youtube.com/watch?v=87E8bQrX4Wg</a></p>

**Creative Writing**

Imagine that when you are on a walk you discover some strange tracks...

You think they look like dinosaur foot prints but nobody believes you.

Write a story to tell what happens next...

- Some ideas to think about for your story:
- What type of Dinosaur could it be- can you identify the foot prints?
  - Where would be a good place to find this particular Dinosaur- what does it like?
  - Is it fierce or friendly?
  - Does it need your help or is it dangerous?

A T-Rex weighs nearly 9 tons /9,000 Kg.

To give an idea of how heavy Dinosaurs were, can you create a chart comparing all their different weights with something that we may see in our daily lives?

For example:

Dinosaur	Weight	Comparison
T-Rex	9 Tonnes	3 small cars
Diplodocus	.... Tonnes	..... Elephants

Sometimes it is hard to imagine how big Dinosaurs were. Pick a Dinosaur of your choice, could you measure how big this is outside?

'How big were Dinosaurs' by Lita Judge

Find out about what dinosaurs ate.
