

Bikeability Level 1 and 2 Training

Bikeability training date:
Week commencing 5th October 2020
Monday – Thursday

Dear Parent / Carer,

We would like to offer your child the opportunity to take part in Bikeability training. This is the national cycle training programme supported and funded by the Department for Transport. The course builds the skills and confidence of children who can already ride. Bikeability can not only make children better cyclists - potentially for the rest of their lives - but can help with general confidence and independent thinking. All of our Bikeability training is delivered by qualified, professional, DBS checked National Standard Instructors. Due to current restrictions, any rider wishing to take part in the Bikeability training must be able to cycle independently without physical assistance. Please refer to the Bikeability website as a resource in preparing your child for their cycle training and for more information www.bikeability.org.uk.

The first session is conducted on the playground, followed by on road cycling using quiet residential streets surrounding the school for the rest of the week. The main aim of the course being that the children will be able to make a short journey in a safer manner and be more aware of road safety issues.

Each child will need a fully operational bike with two working brakes and a cycle helmet. If they do not have access to a bike please let your school know and we will endeavour to make the necessary provisions. Due to the current situation, all riders must have **their own helmet**, and if they have their own Hi-Vis jacket/vest then please bring this too. A thorough bike and helmet check takes place during the first session, where any necessary adjustments are made to ensure that the equipment is suitable for the participants. In addition to this we would ask that you also check the bike and helmet prior to training to reduce the amount of physical contact that we have to make with the equipment. Riders are then encouraged to independently do these checks throughout the training week, although this is over-seen by qualified instructors. Hi-Vis jackets will be provided to all children during the training for those not using their own.

Below is a video link from Bikeability on how to correctly fit your helmet and basic off road skills children need before going on the road.

[Http://bikeability.org.uk/cycle-more/family-cycling/essential-cycling-skills-for-families/](http://bikeability.org.uk/cycle-more/family-cycling/essential-cycling-skills-for-families/)

At the end of the training the children will be given a certificate confirming they have completed the course and acknowledges the ability level that they are working at for the different outcomes; **independently, with more practice, with some assistance or not yet attempted.**

If you would like your child to participate in the training then please could complete the attached permission slip and return to your school as soon as possible in order that we can ensure every child is provided for.

All cycle training will be delivered in line with current Covid-19 government guidance for schools, with our instructors and riders remaining 2m apart at all times, unless the need for First Aid is required. All instructors will have access to the necessary PPE equipment.

Bikeability Level 1 and 2 Training

Should you have any questions please do not hesitate to contact me via your school or on the email address below.

Yours Sincerely

G. Vincent
