22nd October 2020

Dear Parent/Carer,

Year 3 Light Show & Science Day – 1st December 2020

In year 3, we will be learning about 'Light' as part of our science topic. We have planned some exciting learning experiences to engage the children. One of which is a fantastic show of light effects and experiments inside a darkened dome!

The day will include a fabulous, fun, high-energy journey through light and colour. The children will be investigating: what light is, where it comes from, how it travels and how they see light. They will also learn about: mirrors, prisms, filters and how they can provide a dazzling display of reflection, refraction and colour mixing inside a darkened dome.

The cost of the day experience is £5.50. Please make your contribution via your child's online account www.scopay.com by Friday 6th November. Although we can only ask that this is a voluntary contribution should there be insufficient contributions, the school reserves the right to cancel or postpone the workshops.

N.B. Visitors will always follow our risk assessments, official guidance from the Government and the NHS to minimise the spread of Covid-19 and protect the welfare of our children and staff.

Yours faithfully

Year 3 Team
