Action Plan for Risk Assessment

Action Plan to be completed based on the findings of the risk assessment. The following actions are to be undertaken to reduce the risk level as far as reasonably practical and to ensure that all of the standard controls and local arrangements are in place.

No	Hazard not fully controlled	Performance Status	Action required	Person Responsible	Target Date	Date of Completion
		High				
		Medium				
		Low				
1.	Disinfecting of resources		Purchase disinfectant and ensure all staff are aware of the necessity for this	KL	1.6.20	2.6.2020
2.	Signage and markings placed through school		Ensure all markings and signs are in appropriate places	KL/IR	29.5.20	1.6.2020
3.	All staff aware of evacuation procedure		Share with all staff at INSET day	IR	1.6.20	4.6.2020
4.	Staff aware of protocol should first aid have to be administered		Share with all staff at INSET day	CM/IR	1.6.20	1.6.2020
5.	Staff aware of protocol for supporting pupils with SEND		Share with all staff at INSET day	IR/SW	1.6.20	1.6.2020

Response if there is a child/adult displaying symptoms:

Government guidance currently recommends:

- Person with symptoms stays at home for a period of 3 days and has a test
- Members of the bubble informed that we are awaiting results
- There is no need to send the rest of the bubble home at this point
- If the test is positive:
 - All members of the bubble self-isolate for 14 days and have a test
 - If further members test positive – extend the period of self-isolation
- If the test is negative:
 - The person who initially displayed the symptoms may return

If any member displays symptoms, the bubble will be deep cleaned on the day without waiting for the test result.
