

## English

The children will use different Egyptian-themed texts to create diary extracts, character descriptions, non-fiction and persuasive texts.

## Science

Children will explore water and air resistance, linked to Egyptian boats. They will learn how different forces all act on objects to slow them down.

## Computing

The children will be exploring internet safety and robotic lego coding.

## PSHE

The children will explore:  
What makes up a person's identity.  
Making decisions with money.

## Maths

Children will begin by focusing on place value, including decimal numbers. They will then move on to the four operations.

## PE (Fridays)

Children will use the 'REAL PE' scheme to develop their teamwork skills.

## History and Geography

Children will study the Ancient Egyptians and their way of life.

The children will compare different continents to Africa and develop their understanding of longitude and latitude.

# Year 5 Autumn Term 2021

## Art

Children will be developing various techniques, including drawing, painting and sculpture with a range of materials (pencil, charcoal, paint and clay.)

## R.E.

Children will explore feelings about God and consider other faiths' interpretations.

They will then explore the role of the Magi from the Christmas story.

## French

Children will learn how to describe places and give directions through a song.
